Description:

DESCRIPTION :

- 1). The machine is specialized in production of hi-grad aluminum door and windows, and it is suitable to connection of 90 angle structure of aluminum door and window.
- 2). Strengthened machine structure and rack make make more stable than before
- . 3). Automatic Up-down inner localization make the work piece clamping convenient.
- 4). Special hydraulic system station with big power and big crimping power, that can process the cross-section and more thickness profile, fast crimping and high efficiency
- . 5). The centre drawer block can move down when finished the work.
- 6) Synchronous feeding of the level(left and right side) pushing knives by link with one hydraulic cylinderDriving which avoid the corner deform and enhance the corner connection efficiently.
- 7) Convenient operation and less error in processing.
- 8) Distance of tool knife adjustable, as the screw thread connection, easy working for tools.

Product Code: PRO-399
