Description:

1. MACHINE DESCRIPTION - Electro-mechanical bending machine with robust cast iron structure and base in press-bent metal. 2. Three drive shafts, controlled by motor reducers and tempered steel gears. 3. Manual bending increase by means of lower mobile shafts activated by way of a ratchet spanner. 4. CRM 130 is produced in both horizontal and vertical versions, for easier adaption to the needs of the workspace. 5. The bending increase is powered by two motor reducers and the position of the roller is visualized on two independent displays.
